Line Selection for Eging

**Avani Eging
Max Power PE X8**

Supple line for smooth guide flow and longer casts.

x8 | Tight-weave construction for superior abrasion resistance. — reliable even on rocky shores. Highly responsive to tidal flow— perfect for drift fishing.

**Avani Eging
Max Power PE X9**

Conquer the deep, master tough conditions — trouble-free performance!

x9 | With ultra-low stretch of just 3%, you can clearly feel the bottom and every bite even in deep water. Excellent linear stability for easy control and minimal tidal influence.

**Avani Eging Shock Leader
[Fluorocarbon]**

When in doubt, choose this!
The standard Eging shock leader from VARIVAS.

**Avani Eging Premium Shock Leader
[VSP Fluorocarbon]**

Recommended for Pro Anglers.
A high-end Eging shock leader with superior linear strength and abrasion resistance.
